https://github.com/kaykay1424/kaykay1424.github.io

SKILLS

Languages
- HTML5, CSS3, SCSS, JavaScript, PHP, SQL

Frameworks/Libraries
- Bootstrap, jQuery, React

Technologies
- Git, Github, AJAX, Slack, MySQL, Node.js, CSS Grid, Flexbox, MongoDB

PROJECTS

Wikipedia Viewer

Website: https://kaykay1424.github.io/dev-portfolio/Wikipedia-Viewer/index.html

Github: https://github.com/kaykay1424/kaykay1424.github.io/tree/master/dev-portfolio/Wikipedia-Viewer

The Wikipedia Viewer allows users to search for a Wikipedia article and choose the amount of articles to be returned. Users can bookmark an article to read later or favorite an article, which will then be stored in the browser's local storage.

Development Stack
- Front End
    ⇒ HTML, CSS, Bootstrap, JavaScript, jQuery
- Back End
    ⇒ Wikipedia API

Tic Tac Toe

Website: https://kaykay1424.github.io/dev-portfolio/Tic-Tac-Toe/index.html

Github: https://github.com/kaykay1424/kaykay1424.github.io/tree/master/dev-portfolio/Tic-Tac-Toe

The Tic Tac Toe game lets users choose whether to play alone with the computer or play with someone else and whether to play as X or O. The player that gets 3 Xs or Os in a row wins. If all the squares are filled and no player has gotten 3 in a row , that results in a tie and the game will restart.

Development Stack
- Front End
    ⇒ HTML, CSS, JavaScript, jQuery

The Electronics Store

Website: https://the-electronics-store.herokuapp.com/

The Electronics Store is an example e-commerce site where users can add products, like TVs and cameras, to their shopping cart or wish list, search for products by name, price, discount, brand, or category, purchase products through Paypal, and contact the store. It also includes an admin panel to manage products and customers.

Development Stack
- Front End
    ⇒ HTML, CSS, Bootstrap, JavaScript, jQuery
- Back End
    ⇒ SQL, MySQL, PostgreSQL, PHP

EMPLOYMENT

Sparkline Tech   **10/19-present**
